#### The Learner Review Procedure

Each learner will have met with their Personal Tutor for a 1 to 1 review to discuss the progress they are making at college and any specific support they may require to help them achieve their targets and qualification.

As part of the review each Subject Lecturer completes a report and then the Personal Tutor summaries these in the Personal Tutor Summary. Targets are then set for each learner.

#### **Comments / Reference / Targets**

Francis has been no less than an excellent student for this year thus far. He has made fantastic achievements academically even with the pressures of playing a regular high standard of football. He works to a high standard and strives for the best grade possible which is reflected in his work. He studied Technical and tactical awareness in sport and Practical Sport last term and has started Injury in Sport, all in which he is showing a high level of interest. His Attitude towards the course is outstanding, and his dedication to achieve is what makes him a great student. Overall I want Francis to keep this high standard up.

Smart Targets: Quality of work handed in for assignments

Francis has been performing to a good level so far this year and has completed work to a good standard which is nice to see. His attendance and punctuality has been ok for the year and this has reflected in his quality of work. It is important for him to continue as he can complete the course within the next 2 months, if he works hard from now on. He has some good practical sessions and has worked on a good level on the units this year, he must ensure he keeps his attendance levels up to help him complete the course

within time.

#### Review:

Francis has been a great student to have on my course this year. His progress has been good and is working hard in all of his units for all teachers even though there is still room for improvement. He is an absolute pleasure to have on the course and a delight to tutor. His focus on what he wants to achieve academically and in sport drives him. I believe that Francis will fill his potential and go far.
