The Learner Review Procedure

Each learner will have met with their Personal Tutor for a 1 to 1 review to discuss the progress they are making at college and any specific support they may require to help them achieve their targets and qualification.

As part of the review each Subject Lecturer completes a report and then the Personal Tutor summaries these in the Personal Tutor Summary. Targets are then set for each learner.

Betul tries hard during lessons. Sometimes she gets distracted by other classmates though. Betul is persevering with topics such as division. Betul also like to join in during lessons when asked questions by myself.

Only issue is not to get distracted by other classmates.

Betul is a pleasant student but has not been as focused lately and has missed a few sessions. She can pass the course but needs to put in more effort. Last lesson she never brought in her folder and did not show me her homework. E2 may be more her level rather than E3. Betul is capable but needs to work harder. Jason Patterson.

The class this term have been learning about safe methods when shampooing/ shampoo massage techniques/ sterilisation/ client care and comfort/personal presentation and hygiene/ tools for blow drying and to blow dry hair/ electrical equipment/ key words for hairdressing technical words.

The expected outcomes for this term is for the students to be able to shampoo hair using massage techniques / to identify shampoo products / to section hair in four / to blow dry hair straight and curly using the blow drying tools.

Betul needs some encouragement to participate in answering questions. She is gaining more confidence each week in the practical session and enjoys seeing the end result of her blow dry. She will be encouraged to practice her shampoo skills and to blow dry hair straight using blow drying tools.

She can produce a high level of written work and is a likeable and active member of class, but she is easily distracted. Sometimes she will produce very little in class, and I do feel that she needs to develop a more mature attitude if she wishes to progress. In the Reading test (18.11.10) she scored 10/25, which shows how much work still needs to be done Rosalba Petrie.

This term we initially covered Health and Safety then progressed onto manicures. The students have been carrying out basic manicures and carrying out specialised treatments - salt scrub, use of mittens and mask. They have also been producing nail art and familiarising themselves with the related theory.

In tutorial we have been following the tutorial and enrichment programme.

Betul is an enthusiastic and committed member of the group who actively participates in all class activities. Her confidence has improved and she now needs to concentrate on achieving her theory targets. Betul will achieve these units if she remains focused. Well done a good start.

Targets

in the writing test, 23rd November your result was 60%.

Your review was good, and you can produce good work but your final piece of writing was very short. To pass at E3 you will need to produce more than a single paragraph. See comments for areas to improve

Comments:

Betul is making progress in her functional skills maths lessons. She has covered topics in fractions, decimals, multiplication, division and money. She however had difficulty with applying fractions to problem solving situation . She also has difficulty of multiplication where the unit digit exceeded 5. She needs to practice on her times table. Betul should take control of her own learning, working independently. She works well in group or paired situation.

She has to be punctual to lessons.
