The Learner Review Procedure

Each learner will have met with their Personal Tutor for a 1 to 1 review to discuss the progress they are making at college and any specific support they may require to help them achieve their targets and qualification.

As part of the review each Subject Lecturer completes a report and then the Personal Tutor summaries these in the Personal Tutor Summary. Targets are then set for each learner.

Students are currently developing their print-based media production skills and journalist techniques, by creating a magazine spread using Adobe InDesign software and a print-based media advertisement using Adobe Photoshop software. For this unit students had to research on the print-based media industry, print-based media products and participate in a traditional hand print-based media production workshop. The final task was to create a magazine article to go with the genre of the magazine covers they created last year and a print-based media advertisement to target a specific audience. This was to be presented in the form of a magazine spread with front cover and print advertisement.

Comments:

Medhi's attendance and punctuality is excellent. Medhi has worked very hard on these units, met all the deadline and is continuing to produce very good work. Medhi's research on the print-based media products and techniques was very detailed and clear, enabling him to achieve a merit grade. Medhi is currently working on his magazine article and advert. If Medhi takes on board any feedback handout his practical work and keeps referring to professional magazine articles for inspiration, he should be able to achieve at least a merit grade overall.

Students are currently working on Unit 7: Understanding the Creative Media Sector and Unit 8 Understanding the Television and Film Industries. As part of these units students are required to demonstrate their understanding of how the the creative media sector is structured and and the various constraints that media companies have to work within as well as identify job roles available within the creative media sector in the form of reports and research folders. For the final task students are required to prepare personal career development material in the form of a video production showreel and take part in a mock interview where they will highlight their skills and qualifications relevant to the position they have applied for also demonstrating their self presentation skills.

Mehdi has produced some excellent work this term. He has met all his deadlines and his written work is good. However he has a habit of not completing work by the interim deadline which is difficult for me to assess accurately. Mehdi needs to ensure that he completes all first draft work to the best of his ability and use the detailed feedback to improve his grade. He also needs to ensure that he completes his showreel by Tuesday 13th December to complete these units.
