The Learner Review Procedure

Each learner will have met with their Personal Tutor for a 1 to 1 review to discuss the progress they are making at college and any specific support they may require to help them achieve their targets and qualification.

As part of the review each Subject Lecturer completes a report and then the Personal Tutor summaries these in the Personal Tutor Summary. Targets are then set for each learner.

10.11.10 moved for excessive talking and phone/MP3 player confiscated - disappointing as Abdi usually behaves well

Review:

Issues Raised:

Abdi is an able member of the group who displays an interest in the subject and appears to enjoy the work. He is developing a good general construction knowledge and is usually willing to share his ideas with the rest of the class during discussion. Written work is usually good - sometimes detailed and carefully presented; but sometimes only just adequate. I hope he can sustain his current interest in and enthusiasm towards Construction. Overall, a good start so far.

Review: Abdi is a likeable lad who tends to act silly at times but can do good work when he consentrates. He has completed most joints and is currently making a frame. He has good attendance and punctuality

Issues Raised:

Allan Jones.

Abdi has made some very good progress at times, but often he has allowed himself to become distracted. He has been a very good student in the past and I hope that he will get himself back on track and do all he can to complete his coursework to the best of his a ability. He is an able student who has the ability to do well if he applies himself and I hope he will take note of these comments. He must also ensure he obeys the college expectations on punctuality and ensure he arrives at all classes on time. If Abdi works conscientiously for the remainder of the course he can achieve a good grade in the BTEC Damian McGeary.

Review:

You have started to produce assessed work towards Unit 5. You must maintain a high standard of classwork and assessed work to pass this unit.

You have also started the practical unit.

If you produce work of the standard you are capable of then you will be able to achieve highly, however you must not allow yourself to become distracted during class when topics are being taught.

Issues Raised: Abdi must not allow himself to become distracted during class
