The Learner Review Procedure

Each learner will have met with their Personal Tutor for a 1 to 1 review to discuss the progress they are making at college and any specific support they may require to help them achieve their targets and qualification.

As part of the review each Subject Lecturer completes a report and then the Personal Tutor summaries these in the Personal Tutor Summary. Targets are then set for each learner.

In art and craft classes the students develop design ideas for Logos for carrier bags. They have found ideas by looking at the internet but then made their own unique designs. These were transferred to fabric using tracing paper and a light box. They also used old egg boxes to make paper-mashie sheets to glue onto wine coasters and notebooks. The mats were then decorated with dried flowers, leaves and beads.

showing some of the landmarks and other significant sites. They have searched on the internet details of places of interest to visit like markets,

galleries and have learnt to use maps and directories to find their way around.

The class have been learning and visiting places in London and made a map

Troy still finds difficulty with reading English, it is not easy but he is happy with BSL communication. Going out in the community is a new experience and he says he enjoys this a great deal. He has visited places he has never been before and enjoys going to the shops. In the art class he mixed feelings, some parts are enjoyable, some are not, however he still takes part. Although he always takes part with the groups and contributes to discussions he does not always enjoy group work. His contribution of knowledge on the community is always good and useful to the group. Troy enjoys interaction with the group although communication can be restricting.

Numeracy

The learners are participating in learning City and Guilds Numeracy skills E1.

This unit consists of sizes, shapes, recognising adding and subtracting signs, money skills and totalling up sums from 1-10 and 10-20.

Comments:

Troy-Has shown a real interest in numeracy and has excelled in working with numbers. He was finding literacy difficult and would walk out the room than to face the challenges. I have placed him in the numeracy section, but he still has to read some of the words, as many of the questions are written in words. He has also got a communicator to help him.

Work skills

This term the learners have worked on understanding income and expenditure. How they receive or get an income. Learners have looked at wages and benefits. Plenty of monetary skills used real money. Learners have been doing Role play- being customers and sells assistants, giving and collecting correct money for items brought in a shop. The learners have completed managing their own money unit.

Comments:

Troy- Has gone from strength to strength, he has contributed in all activities such as in group discussions, interview skills at times even giving advice to his peers. Troy has shown a great deal of interest in producing his curriculum vitae (CV). Well done Troy in completing this unit.

To be Human Relations Manager for Team Logik

Sometimes you have taken this role seriously and made comments about some people in the team are doing more work than others. This is very true. You also worked hard on the computer cleaning business with your interpreter Peter. It is a shame we cannot do it anymore as it raised a lot of money.

Comments:

Your next goal is to be more involved in the production and to make sure the team is walking hard enough. This would mean walking around and looking at the team's work and giving them feedback if they are working safely and productively. This would be in the craft lesson. In the enterprise lesson you can help Deniz and Toyin to give team members their jobs for the day. Your work would improve if you gave new things a go and discussed how to adapt jobs so you enjoy them instead of refusing. Peter will always help you with this.

Review Term: Spring

Review:

In the tutorial session, the group this term has been working on Managing Money with Mencap and learning to work in a group. The learners have been working on their units, 'Action in the community'. The unit consists of the learners recording one person whom can help them in certain situations.

Troy has shown an issue with his attendance, which has indicated a warning sign.

Troy this term has grown with confidence and has settled with his peers.

It has been noted Troy gives up to easily and needs to learn to have patience.

Troy has illustrated an interest in getting a job. He independently went for an interview with Remploy.

Troy has really shown alot of confidence this term in group discussion and peer activities, he has expressed his opinion well done.
