The Learner Review Procedure

Each learner will have met with their Personal Tutor for a 1 to 1 review to discuss the progress they are making at college and any specific support they may require to help them achieve their targets and qualification.

As part of the review each Subject Lecturer completes a report and then the Personal Tutor summaries these in the Personal Tutor Summary. Targets are then set for each learner.

Smart Targets: Take notes in lessons this WILL help you in your understnding

Comments:

Tiago is reluctant to engage in this unit, fails to take notes, is easily distracted and has a problem in listening. I feel that this is going to be a struggle for him, but he does not help himself, at times acting as if he was still at school and by being "bad "he somehow becomes the hero. this is not good enough and he needs to deal with this.

Jim Jack.

Smart Targets: More research/work in your own time.

Tiago, your attendance and punctuality is fantastic for this unit. Well done. You have also completed all the work set in the studio. However, you tend to race to complete the work and as a result, the work is not of a very high

standard. You have to now understand that its the QUALITY of your work that

counts, that means making sure you have good research that will help you

produce design ideas that must be well thought out and executed.

Elizabeth Eugene.
