The Learner Review Procedure

Each learner will have met with their Personal Tutor for a 1 to 1 review to discuss the progress they are making at college and any specific support they may require to help them achieve their targets and qualification.

As part of the review each Subject Lecturer completes a report and then the Personal Tutor summaries these in the Personal Tutor Summary. Targets are then set for each learner.

June joined in my mathematics group late, but she is making excellent effort to catch up. She is making progress. At present she is working on percentage calculation in practical problems. She works independently and also participates well in a group. However, she should make positive effort to improve her record of attendance.

Dr M K Mukherjee 09/11/10.

June also joined late in the Physics group. When she joined the group the first assignment was at its last stage of completion. Hence she was allowed extra time to work on the assignment. She was also given extra support to bring the work up to the level. She now about to hand in her assignment. She is working well.

Review Term: Autumn

Review: Performance

Issues Raised: Although June joint the course very late but she worked very hard and caught up very quickly. I have no doubt that she would complete the course successfully.

Sadegh Ziai.

Review Term: Autumn

Review:

June is a very good member of the group who works very hard at all times and in all subjects. She is progressing well in all her subject areas, despite some unavoidable difficulties in other areas.

Her overall performance in assignments and other types of work is commendable and she is always looking to improve, especially in areas where she feels her grades are not as good.

Issues Raised:

The attendance and punctuality have been a problem for June during the Autumn term. Inevidably, these must have a detrimental effect on performance. She should try her best to improve in these areas, so that the quality of her work can also improve.

Well done so far.

Mina Minas.
