The Learner Review Procedure

Each learner will have met with their Personal Tutor for a 1 to 1 review to discuss the progress they are making at college and any specific support they may require to help them achieve their targets and qualification.

As part of the review each Subject Lecturer completes a report and then the Personal Tutor summaries these in the Personal Tutor Summary. Targets are then set for each learner.

Salim has been no less than an excellent student for this year thus far. He has made fantastic achievements academically even with the pressures of playing a regular high standard of football. He works to a high standard and strives for the best grade possible which is reflected in his work. He studied Technical and tactical awareness in sport and Practical Sport last term, continually studying Functional skills English and Maths which he has improved in. He has now started to study Unit 5 Injury in Sport in which we will study the various types of sports injury and how they occur in sport. His Attitude towards the course is outstanding, and his dedication to achieve is what makes him a great student. Overall I want Salim to keep this high

Smart Targets: Keep producing quality assignments

Salim has been performing well so far this year and has completed work to a high standard which is pleasing to see. His attendance and punctuality has been good and this has reflected in his good work. It is important for him to continue as he can complete the course within the next 2 months. He has produced good practical sessions and has worked well on the units this year, he must ensure he sticks to deadlines and completes work to the ability he

has.

Review Term: Spring

Review: Salim has been an excellent student to have on my course this year. His progress has been outstanding and is working extremely hard in all of his units for all teachers. He is an absolute pleasure to have on the course and a delight to tutor. His focus on what he wants to achieve academically and in sport drives him and now this is the time to show it as we are thinking about which students to progress to Level 3. I believe that Salim will fill his potential and go far
