#### The Learner Review Procedure

Each learner will have met with their Personal Tutor for a 1 to 1 review to discuss the progress they are making at college and any specific support they may require to help them achieve their targets and qualification.

As part of the review each Subject Lecturer completes a report and then the Personal Tutor summaries these in the Personal Tutor Summary. Targets are then set for each learner.

Smart Targets: Write up ongoing evaluations

Emma has been experimenting with paper and creating some good textural pieces, She works well and if the work is not going to plan she is not scared to start again and learn from her mistakes. The work is stronger because of

this. She is self motivated and is consistant in her approach to the work.

Smart Targets: Evaluate your MTP's to the required standard

A great start Lucy, you have completed the practical tasks with enthusiasm and your knowledge and skill levels are developing well. You are confident with paint and I like your use of colour and sense of design. Your prints are carefully executed. Your target is to build your confidence with your evaluation and annotation in your sketchbook. It is without doubt the most difficult part of the unit and I am always happy to help you develop this area of your work.

The key is to make notes as the ideas and thoughts pop into your head. Your sketchbook becomes a visual diary.
