- 86% and below is red status

The Learner Review Procedure

Each learner will have met with their Personal Tutor for a 1 to 1 review to discuss the progress they are making at college and any specific support they may require to help them achieve their targets and qualification.

As part of the review each Subject Lecturer completes a report and then the Personal Tutor summaries these in the Personal Tutor Summary. Targets are then set for each learner.

Review Term: Autumn/Spring/Summer

Review: Deniz is an able and enthusiastic member of the group who takes a keen interest in construction but gets easily distracted and likes to be the joker of the class which results in disturbing the other learners. He does, however, tend to rush at his work, resulting in careless mistakes, whether in written answers or practical work. Also, he can get confused when he doesn't always listen to instructions carefully enough. His test results (and the recent exam result) have been average and would benefited, I am sure, from extra revision. However, his written work, while usually acceptable, is rarely as detailed or as well presented as I would wish. I would like to see him make more effort to avoid being distracted during lessons. Overall need improvement and with more effort and concentration I feel Deniz can acheive this.

Review:

Deniz, you need to pay more attention and participate more during the functional skills lessons. You are becoming a distraction to other students in the group and affecting your own progression in your functional skills maths training. I can appreciate that you may find maths difficult or boring but we need to work together so you can develop your maths skills and pass your functional skills exams. If you feel you need additional help and would like to discuss your maths training please see me in confidence to see how I can best help you in your maths training.
