The Learner Review Procedure

Each learner will have met with their Personal Tutor for a 1 to 1 review to discuss the progress they are making at college and any specific support they may require to help them achieve their targets and qualification.

As part of the review each Subject Lecturer completes a report and then the Personal Tutor summaries these in the Personal Tutor Summary. Targets are then set for each learner.

Tutor Review

Comments / Reference / Targets

Review Term: Autumn/Spring/Summer

Review: Tutor review/construction theory

Issues Raised:

Tyrhys is an able and conscientious member of the group who displays a real interest in the subject and appears to enjoy all aspects of the work. He has developed an excellent general construction knowledge and is always willing to share his ideas with the rest of the class during discussion. Written work is usually good often detailed and carefully presented. I hope he can sustain his current interest in and enthusiasm towards Construction. Overall, a good start so far.

Damian McGeary.

Review Term: Spring

Review: Tyrhys is a good member of the class and generally turns out good practical work. However his behaviour can sometimes let him down,if he can control his behaviour he will do very well.

Issues Raised:

Allan Jones.

Tyrhys is an able and enthusiastic member of the group who takes a keen interest in construction and appears to enjoy all aspects of the work. He usually works well in class but must be careful not to allow himself to become distracted by others. Tyrhys is generally a bright and cheerful student and he has continued to make good progress with his coursework. If he continues with the same enthusiasm and dedication to his work, he will be rewarded with a good BTEC grade.

Damian McGeary.

Review Term: Autumn

Review: You have started to produce assessed work towards Unit 5. You must maintain a high standard of classwork and assessed work to pass this unit.

You have also started the practical unit.

If you produce work of the standard you are capable of then you will be able to achieve highly, however you must not allow yourself to become distracted during class when topics are being taught.

Issues Raised: Tyrhys must not allow himself to become distracted during class.
