The Learner Review Procedure

Each learner will have met with their Personal Tutor for a 1 to 1 review to discuss the progress they are making at college and any specific support they may require to help them achieve their targets and qualification.

As part of the review each Subject Lecturer completes a report and then the Personal Tutor summaries these in the Personal Tutor Summary. Targets are then set for each learner.

Review:

Ernestas, you need to pay more attention and participate more during the functional skills lessons. You are becoming a distraction to other students in the group and affecting your own progression in your functional skills maths training. I can appreciate that you may find maths difficult or boring but we need to work together so you can develop your maths skills and pass your functional skills exams. If you feel you need additional help and would like to discuss your maths training please see me in confidence to see how I can best help you in your maths training.

Review:

Ernestas your attendance an dpunctuality is good but you need to work on your attitude once in the classroom and workshop. This needs to improve as you are constantly talking and disrupting other students in the group and you need to stop this and concentarte on your own work. If you can do this we can help you complete your work which will allow a suitable starting point to progress onto next years courses.
