The College of Haringey, Enfield and North East London

Learner Review

08 March 2012

Learner: Francesco De Sena Personal Tutor: Mario Amico

Key to Attendance and Punctuality percentages

- 100% to 92% is green status
- 91% to 87% is amber status
- 86% and below is red status

The Learner Review Procedure

Each learner will have met with their Personal Tutor for a 1 to 1 review to discuss the progress they are making at college and any specific support they may require to help them achieve their targets and qualification.

As part of the review each Subject Lecturer completes a report and then the Personal Tutor summaries these in the Personal Tutor Summary. Targets are then set for each learner.

Francesco is an able member of the group who displays a real interest in the subject and appears to enjoy the work. He is developing a good general construction knowledge and is often willing to share his ideas with the rest of the class. He has good attendance, I hope he keeps keeps this up. The general quality of his written work has been satisfactory, both in terms of content and presentation. I hope he can sustain his current interest in and enthusiasm towards construction. Overall, a very good start to the course - keep up the good work!

Smart Targets: Assessment

Comments:

Francesco it is time to get ready for the electrical wiring assessment which I think you will have no problem with. The effort and the partaking in the classroom as well as in the practical will see you through to a good result.

For this term the students have been carrying out Brickwork for their practical unit. They have been working towards the practical assessment required to pass the unit, from basic bricklaying techniques through to a completed wall.

Frankie has worked hard this term and has produced some good work. He is very willing to learn. Frankie is an enthusiastic and popular member of the group who gets most of the work done to a good standard. He seems to be enjoying the practical element of the course and i hope this continues.

His target is to continue to improve his hand skills so he can achieve the practical assessment early in the new year.

Francesco has worked really well this term and has produced some excellent work in both his practical and theory lessons. We have been working towards the practical assessment for unit 5. Frankie has passed the assessment and achieved a credit. He has now completed about 70% of this unit and is up to date with all the work. When i can get Frankie off his phone!! he usually turns up with the right attitude and with a smile on his face. Well done

Francesco started to do carpentry at the end of April and it takes time to get used to using the vast amount of tools that carpenters use.

A great amount of eye hand co-ordination is needed to use the tools accurately.

The first project that the learner undertakes is a Galleon, during this project the learner has to use a wide range of tools which include the following marking out tools:-

Ruler, pencil, marking gauge, try square, combination square, marking knife and a compass.

After marking out the Galleon the learner has to use the following tools to make it:-

Jack plane, smoothing plane, Rebate plane, Tenon saw, Panel saw, Coping saw, chisels and a Drill.

Francesco demonstrates an understanding of using the tools and has produced some good work, he just needs to hone and practice the skills that he has learnt.

Tutor Review

Comments / Reference / Targets

Review Term: Autumn/Spring/Summer

Review:

Issues Raised:

Francesco is an able member of the group who displays a real interest in the subject and appears to enjoy all aspects of the work. He is building up his construction knowledge quite well with a number of further assignments compleded. The general quality of his written work has been generally quite good, both in terms of content and presentation. Francesco needs to continue to work towards gaining good assignment marks for the remainder of the course. Overall, a good first year so far, keep up the good work!

Damian McGeary.

Review Term: Autumn 2010

Review: Tutor review/construction theory

Issues Raised:

Francesco is a friendly and enthusiastic member of the group who displays considerable interest in the subject and participates in classwork with enthusiasm. He is developing a good general construction knowledge and is usually willing to share his ideas with the rest of the class during discussion. Francesco has completed a number of units in the last year and is now working towards the examination in 'Unit 4, Structures' However, although the quality of his answers is usually excellent, he needs to work on the presentation of his written work. I hope he can sustain his current interest in and enthusiasm towards construction Overall, Francesco is progressing well through the course.

Damian McGeary.

There is no doubting Francesco's ability but there are areas of concern regarding his coursework. He can achieve a high standard of work if he is willing to devote all his remaining time and effort into producing a portfolio of assignments and a project which reflects his obvious ability. It will require him to plan carefully the each stage and to make the best possible use of the time remaining. It would be a shame if he allows himself to achieve a mediocre result or even less. Francesco must also not allow himself to bedistracted in class and must attend punctually to all sessions to ensure the best use of his time. Damian McGeary.

Review	Term:	Summer

Review:

Issues Raised:

Francesco, in this early review I can see from talking to your teachers how well you are doing, well done. Try to use your time in maths lesson wisely as needed by your teacher.

Tony Antoniou.

Review 7	Term:	Autumn
----------	-------	--------

Review:

Issues Raised:

Francesco, you seem to be doing all rhe good things required of you, well done. Tony Antoniou.

Review Term: Autumn/Spring/Summer

Review:

Issues Raised:

Francesco you need to keep your discipline and concentration from allowing you to wander in the maths lesson. Otherwise you seem to be moving forard well.

Tony Antoniou.

Review Term: Spring

Review: Frankie is very intelligent and finds the work easy to complete but gets distracted too often.

Issues Raised:

Mario Amico.
