#### The Learner Review Procedure

Each learner will have met with their Personal Tutor for a 1 to 1 review to discuss the progress they are making at college and any specific support they may require to help them achieve their targets and qualification.

As part of the review each Subject Lecturer completes a report and then the Personal Tutor summaries these in the Personal Tutor Summary. Targets are then set for each learner.

Review Term: Autumn

Review:

You appear to be enjoying the course and work well within the group. You have successfully completed 3 on-line exams, you have processes & hot & cold water exams to re-sit, these will be covered during revision sessions, you are also producing very good practical work with very good for both practical and theory classes. keep up the good work. your next subject in theory will be " Electrical"

Issues Raised: you need to complete all home work, it has also been noted by myself andother lecturers that you do not openly involve yourself in lessons! try to get involved by answering open questions.

Review Term: Autumn/Spring/Summer

Review:

Attendance 85%

Punctuality 93%

Achievement to date:

Your Attendance has has now started to improve, you need to attend all lessons to achieve 100% attendance

Your punctuality has improved and will be monitored over the coming weeks.

Well done! You have now completed all of this academic years theory exams with just 3 re-sits from last year (these will be covered during the revision sessions)

Your next exam will be on Central heating.

You are well in advance on your practical tasks and are on target to complete the tasks well before the required time allowed (29<sup>th</sup> June 2012)

keep up the good work!

Issues Raised: Try to participate in your theory lessons more, by keeping up with the rest of the class and offering answers of open questions put to the class! you must also ensure that you complete all homework assignments as instructed. I am sure that your pass rate would improve if you complied.
