The Learner Review Procedure

Each learner will have met with their Personal Tutor for a 1 to 1 review to discuss the progress they are making at college and any specific support they may require to help them achieve their targets and qualification.

As part of the review each Subject Lecturer completes a report and then the Personal Tutor summaries these in the Personal Tutor Summary. Targets are then set for each learner.

Smart Targets:

The level 1 Creative Media course is designed to equip learners with a variety of skills in video production, music technology and graphic design, whilst encourage learners to develop their understanding of creative media job roles and media knowledge. In addition to this, learners are to attend functional skills classes to improve upon basic numeracy, literacy and ICT.

Comments:

So far learners have completed an induction activity whereby they learnt about the creative media sectors and job roles. Learners are currently working in small group to film a trailer for a specific genre and to target a specific audience.

After a rocky start to the course Josh has settled in well and is now enthusiastic and motivated to complete practical work which I think he enjoys the most. He is currently making a film trailer as part of a group. Josh is polite and keen, however he is easily distracted and needs constant direction when filming in groups. Josh can achieve on this course but he needs to ensure that he is morte focussed on tasks set.

Joshua is a very bright and able student, however has become a little distracted of late. There have been many instances of lateness coupled with some behavioural issues that I have discussed with him. I hope that he can turn this round and find a little focus in order to pass the course with a flourish over the coming weeks. His practical and written work is very good and I hope that he will impress enough to stay on next year for a level 2 program.

Review Term: Autumn

Review:

Josh has made a good start to the course and has settled in to the group well making steady progress. Hew has a passion for music and this has been evident in his sessions in class.

His attendance and Punctuality is excellent and I amsure that if he keeps it up he will be a success on the course. He contributes in class and has a positive outlook on education.

Issues Raised:

Cyrus Armstrong - James.

Josh, You are a very bright students, but despite many 1 to 1 s with me recently you are still missing some classes and turning up late. I know that this makes you angry when I say this to you, because you are so comitted to the course, however the distractions in your life are beginning to affect your study. Please stick to the guidelines that we discussed, such as preparing for college the night before so that you can leave in the morning on time and talking less in class, particularly with Amo and Daniel.
