The Learner Review Procedure

Each learner will have met with their Personal Tutor for a 1 to 1 review to discuss the progress they are making at college and any specific support they may require to help them achieve their targets and qualification.

As part of the review each Subject Lecturer completes a report and then the Personal Tutor summaries these in the Personal Tutor Summary. Targets are then set for each learner.

Comments / Reference / Targets

You are in the 2nd term of your course and are working towards formative and summative assessments for both theory and practical evidence. It is important that you review your action plan on weekly bases to meet your targets. This term you will need to start a revision timetable to allow you to complete the exams that will be booked for February and March in order to get maximum results. Also in class in is important that you remain focus and work towards having a professional work ethic. You can do this by improving you listening skills and keeping to the subject matter.

One new approach for meeting your targets for practical observations could be to tweets to your family and extended friends to be models for you or your pears to gain assessments. Also approach people on your everyday travels with your specific needs and enquire at the style zone for additional sessions for maximum assessment opportunity

Well done 100% for Attendance and Punctuality
