The Learner Review Procedure

Each learner will have met with their Personal Tutor for a 1 to 1 review to discuss the progress they are making at college and any specific support they may require to help them achieve their targets and qualification.

As part of the review each Subject Lecturer completes a report and then the Personal Tutor summaries these in the Personal Tutor Summary. Targets are then set for each learner.

Smart Targets:

Students on the BTEC Level 2 Diploma in Creative Media Production course are currently working on Unit 18: Advertising Production where they are required to demonstrate their understanding of how adverts are put together by analysing existing television and print adverts. They then have to plan an individual idea for and a TV advert and produce and edit a chosen advert idea in small groups. Finally students are required to critically evaluate their contribution to the production in the form of a self evaluation. Unit 2: Communication Skills for Creative Media Production is embedded in the delivery of the Advertising unit were learners are required to demonstrate their communication skills in various ways such as taking part in group discussions, pitching an idea for a television advert using computer software as a visual aid and communicating information in written documents. At the end of Term One learners will have completed two units with Sonia Kobal and myself.

Comments:

Duvall always comes to the classroom with a smile on his face. He is keen and enthusiastic and is confident when expressing his ideas in the classroom. What lets him down is his punctuality since the beginning of the year. However, Duvall has acknowledged this and is working very hard to improve his punctuality. His written work is good and he makes every attempt to complete work above Pass level and hands in his work on time. He contributed well to Task 1 on the Unit 2 assignment brief where he was required to take part in a discussion on an episode of the Apprentice. He was confident in what he said and was able to communicate his ideas in a clear and calm manner whilst still listening to others in the class. Duvall has a bright future ahead of him and if he continues to apply himself in the work he carries out he will no doubt succeed on the course.

Smart Targets:

Complete written work in research sketchbook. Keep up with workshop demonstrations to ensure you develop Photoshop skills.

Students are currently developing their print-based media production skills by creating a magazine cover using Adobe Photoshop software. For this unit students had to research on the print-based media industry, print-based media products and participate in a traditional hand print-based media production workshop. The final task was to create a magazine cover to target a specific audience.

Comments:

Davall's attendance and punctuality is excellent. Davall works hard and makes an effort to complete work to a good standard. Davall needs to ensure his written work is up to date to achieve high grades. However, during practical work Davall has completed tasks on time and with good technical skills even though he initially struggled with Photoshop. Well done, keep up the good work.
