The Learner Review Procedure

Each learner will have met with their Personal Tutor for a 1 to 1 review to discuss the progress they are making at college and any specific support they may require to help them achieve their targets and qualification.

As part of the review each Subject Lecturer completes a report and then the Personal Tutor summaries these in the Personal Tutor Summary. Targets are then set for each learner.

Comments:

Mina has not yet engaged with this project and needs to present working drawings by the first of Nov, She is still distracted by "things" outside the classroom and this effects her work. I am still owed a unit from last year, Small scale working. It would make a big difference to Mina if she could focus on the work in hand and not wander off.

Mina works hard in class, however she has not handed in any homework

set. She scored 51% in the recent test. She is an able student who needs to

apply her self to achieve a good grade.

Mina needs to hand in homework on fractions, averages, scatter graphs,

directed numbers, representation of data, probability and score 60% in the

next test. She also needs to improve attendance and punctuality.

You are a student who in many ways can take a theme and work independently to produce good work. The one aspect that affects your progress more than the quality of your practical work is your lack of

Comments: organisation and focus. To begin with you are not giving over enough time for

this assignment and your sketchbook work is disorganised and lacks continuity. Try to approach your work this year as a professional with

deadlines and targets to meet.

Major Project

Mina, as usual the work produced for this unit so far is of a very high

standard, well done. However, at times you try to cram so many ideas,

Comments: techniques into the unit that you sometimes lose track of the intended aim and

therefore do not complete all the grading criterion. This is what's beginning to

happen on this occasions, sometimes less is more.
