#### The Learner Review Procedure

Each learner will have met with their Personal Tutor for a 1 to 1 review to discuss the progress they are making at college and any specific support they may require to help them achieve their targets and qualification.

As part of the review each Subject Lecturer completes a report and then the Personal Tutor summaries these in the Personal Tutor Summary. Targets are then set for each learner.

#### **Comments / Reference / Targets**

1- Your attendance needs to improve to at least 87%. You need to attend all

your lessons until the end of the term

2- Read Anita and Me by the end of March in preparation for unit 2

3 - Study the guide for Anita and Me given to you in class and demonstrate it every lesson by commenting on the key features of each chapter

Amran you have the potential to do well in the course but you need to be more proactive in class and take part in the lesson activities. Your speaking skills in particular, need improving. This is a very important qualification for university and work and therefore you need to put in the effort in order to achieve a good grade.

Review Term: Autumn

Review:

Amran is an intelligent student who is capable of working towards very high standards. She has started the course somewhat lethargically but has improved steadily ever since. Her performances in assignments as well as in homeworks, tests, classwork have been of reasonably good standard.

Amran should now try and improve to reach the next level in her work according to her capabilities. By behaving slightly more maturely in class and concentrating better, this will be more easy to achieve. Another factor that will improve her work is attendance and punctuality. There is no reason why the attendance cannot be 100% in all subjects. There is also no reason why her punctuality, especially in Chemistry cannot become 100%. This is exactly the performance that is expected of her during the second term. Her academic ability is good and if this is accompanied by enhanced maturity and concentration, she should be able to achieve her full potential.

#### Issues Raised:

Attendance and punctuality should be improved to 100%.

Concentration and focus in class in all subject areas must improve.

Mina Minas.

Review Term: Spring

Review:

Amran has some corrections left to complete her Unit 3 3rd assignment in Biology. She also needs to complete all corrections to Unit 10 assignments. She needs to work hard to improve her U 2 assignments to achieve Ms and Ds.

She needs to improve her attendance in English. Also to read for Unit 2 the study guide. There is a need for her to be more proactive in class and to take part in activities. English is very important qualification for university.

In Functional Skills her attendance needs to improve. If she does that she is expected to achieve over 85%.

Overall, Amran would do well to improve her focus in all classes as she has the ability to do well.

Issues Raised: Somewhat distracted easily. She should try to concentrate more during the lessons.
