The Learner Review Procedure

Each learner will have met with their Personal Tutor for a 1 to 1 review to discuss the progress they are making at college and any specific support they may require to help them achieve their targets and qualification.

As part of the review each Subject Lecturer completes a report and then the Personal Tutor summaries these in the Personal Tutor Summary. Targets are then set for each learner.

Review Term: Autumn

Review: Tutor review/construction theory

Issues Raised:

Benjamin is a reserved member of the group who displays a quiet interest in the subject and participates with enthusiasm. He is developing a good general construction knowledge and is usually willing to share his ideas with the rest of the class during discussion. Written work is usually good but sometimes only just adequate. I would like to see him put more consistent effort into his assignment work. Overall, a good start so far. Damian McGeary.

Review Term: Spring

Review:

Benjamin attends well, But allows himself to get easily distracted benjamin must pay attention to what he is doing and then his work will improve.

Issues Raised: attention

Allan Jones.

Benjamin has made some progress in the course but easily allows himself to become distracted. He has been a very good student in the past and I hope that he will get himself back on track and do all he can to complete or update any unfinished stages in his coursework portfolio. He has the ability to do well in the course but only if he stays focussed and on task while in class.

Review Term: Autumn

Review: You have started to produce assessed work towards Unit 5. You must maintain a high standard of classwork and assessed work to pass this unit.

You have also started the practical unit.

If you produce work of the standard you are capable of then you will be able to achieve the qualification, however you allow yourself to become distracted during class too easily, thus missing valuable information being taught.

Issues Raised: Benjamin must make more effort to concentrate fully during class in order to gain achievement on the course
