The Learner Review Procedure

Each learner will have met with their Personal Tutor for a 1 to 1 review to discuss the progress they are making at college and any specific support they may require to help them achieve their targets and qualification.

As part of the review each Subject Lecturer completes a report and then the Personal Tutor summaries these in the Personal Tutor Summary. Targets are then set for each learner.

Smart Targets: Keep to assignment deadline dates

Paul has been performing well so far this year and has completed work to a high standard which is pleasing to see. His attendance and punctuality has been good and this has reflected in his good work. It is important for him to continue as he can complete the course within the next 2 months. He has produced good practical sessions and has worked well on the units this year, he must ensure he sticks to deadlines and completes work to the ability he

has.

Smart Targets:

Paul has been good student for this year thus far. He has made good achievements academically even with the pressures of playing a regular high standard of football. He works to a high standard which is reflected in his work even though he could push himself further. He studied Fitness testing and training, Sports development, and assessing risk last term and is now studying Practical Sport this term, all in which he is showing a high level of interest. His Attitude towards the course is good, even though his attendance could be improved. Overall I want Paul to keep this high standard up.

Review:

Paul has been a great student to have on my course this year. His progress has been good and is working hard in all of his units for all teachers even though there is still room for improvement regarding standard of work. Recently he has been working to a high standard and almost completed 4 of 6 units. He is an absolute pleasure to have on the course and a delight to tutor. His focus on what he wants to achieve academically and in sport drives him. I believe that Harvey will fill his potential and go far.

Issues Raised: Attendacne is starting to slip, ensure that you make every effort to attend all lessons without fail.
