The Learner Review Procedure

Each learner will have met with their Personal Tutor for a 1 to 1 review to discuss the progress they are making at college and any specific support they may require to help them achieve their targets and qualification.

As part of the review each Subject Lecturer completes a report and then the Personal Tutor summaries these in the Personal Tutor Summary. Targets are then set for each learner.

Review Term: Autumn

Review: Tutor review/construction theory

Issues Raised:

Hakan has been attending the theory class but has not been participating fully in the work and does not show a high level of interest in the subject. Unfortunately, he is not developing much construction knowledge and is often involved in distracting other group members during class. Written work is sometimes only just adequate, but often not enough to show any achievement. I would like to see him make more effort to avoid being distracted during lessons, and to try to take part constructively in class. Damian McGeary.

Review Term: Spring/

Review: Hakan has a good attendance record and can do some very good work. this is spoiled by his genrally bad behavior in class were he can be disruptive at times. if this can be improved he would be a great asset to the group. hakan has reasently showed some sign of improvement

Issues Raised: behavior

Allan Jones.

Hakan needs to re-think his whole approach to this subject if he is to make any real progress. He has failed to take his work seriously and as a consequence he has produced a poor standard of work so far. Despite encouragement in class and continual monitoring, he still continues to disappoint. Hakan will not realistically achieve the BTEC qualification at his current level of commitment and class engagement. Damian McGeary.

Review Term: Autumn

Review: You have started to produce assessed work towards Unit 5. You must maintain a high standard of classwork and assessed work to pass this unit.

You have also started the practical unit.

Your classwork and level of class participation is currently below that required to successfully achieve the course. You must improve both the standard of classwork produced and your application during classtime if you are going to achieve the qualification.

Issues Raised: Hakan must improve his standard of classwork and his classroom application in order to achieve the qualification.

Damian McGeary.
