The Learner Review Procedure

Each learner will have met with their Personal Tutor for a 1 to 1 review to discuss the progress they are making at college and any specific support they may require to help them achieve their targets and qualification.

As part of the review each Subject Lecturer completes a report and then the Personal Tutor summaries these in the Personal Tutor Summary. Targets are then set for each learner.

Review Term: Autumn
Review: Hory is a reserved member of the group who displays a quiet interest in the subject and participates in practical work with enthusiasm. Earlier Hory's results were very good but, more recently, he has allowed his standards to drop slightly, and this is reflected in his practical work. The general quality of his written work has been consistently very good, both in terms of content and presentation. I would like to see him make more effort to avoid being distracted during lessons. He should also try to take a more active part in practical investigations to improve his confidence in this area. Overall, a good first term just need to to improve attendance and remember to call into College if you can not attend.

Review:
Hory, you are working well in your functional skills lessons but you need to concentrate more and stop spending too much of your time chatting when there is still work to do. We need to work together to get you to a standard to be able to pass your functional skills maths exams in May 2012 which, if you can reduce the amount of time chatting is a very achievable target.

Review Term: Spring
Review:
Your attendance has slippde which is affecting both your practical and theory studies. I Understand that some of this was due to you attending some apprentice training on wednesdays but now that has finished I expect your attendance to improve week on week from now on. You have completed some work to date but you need to improve your attendance immediately otherwise completion of this year's course and subsequent progression onto next year's course could be affected.
