The Learner Review Procedure

Each learner will have met with their Personal Tutor for a 1 to 1 review to discuss the progress they are making at college and any specific support they may require to help them achieve their targets and qualification.

As part of the review each Subject Lecturer completes a report and then the Personal Tutor summaries these in the Personal Tutor Summary. Targets are then set for each learner.

Smart Targets: Show a 20% improvement in your timekeeping by the end of november

Comments:

Punctuality is a problem here and it needs to improve, but she is almost on target for this unit, being on time would improve matters as she misses the start of the lessons. But you are producing some excellent work while being experimental in your approach. Well done Jim Jack.

Comments:

Comforter, well done on the standard of the work yo have produced so far for this unit. You seem to understand and pick up on techniques very quickly. Remember, to always expand and push yourself a little further in all the work given. Don't be too worried if you make a mistake, this is where your self evaluation comes in (a short sentence next to the work saying why you don't

like it and how you will improve on it if you were to do it again).

Smart Targets: Attendance and punctuality for this unit has been an issue. Leave home early

Comments:

Pity Comforter has missed so much of the latter half of this unit (her confidence was dented when she lost her book). However, the body of work seen is of a very high quality and this is reflected in her final grade, She has great ability to do well when/if she moves onto level 3.
