The Learner Review Procedure

Each learner will have met with their Personal Tutor for a 1 to 1 review to discuss the progress they are making at college and any specific support they may require to help them achieve their targets and qualification.

As part of the review each Subject Lecturer completes a report and then the Personal Tutor summaries these in the Personal Tutor Summary. Targets are then set for each learner.

Smart Targets: Assessment

Comments:

Leon you have a good enquiring attitude to your learning, well done. It is time to get ready for the electrical lighting wiring assessment which I think you will have no problem with. The training on the lighting circuit at the moment is at a good level.
