## The Learner Review Procedure

Each learner will have met with their Personal Tutor for a 1 to 1 review to discuss the progress they are making at college and any specific support they may require to help them achieve their targets and qualification.

As part of the review each Subject Lecturer completes a report and then the Personal Tutor summaries these in the Personal Tutor Summary. Targets are then set for each learner.

### **Comments / Reference / Targets**

Sidney's level of performance last term was poor, but recently has improved. His attendance alone is well below the high standard that we expect here at the college. He has made little academic progress this year, but recently has ensured that he makes academic improvements and has benefitted from assignment workshops put on and has passed 3 units. Targets have been implemented on ezone to help him achieve his best. His attitude towards the course/units has improved and this has reflected in his assignment work especially in technical and tactical awareness in sport and practical sport. We have now started a new unit Injury in Sport where he will study a range of injuries and illness' that can occur in sport. Overall Sidney has improved and must keep this up.

Smart Targets: Meet assignment deadline dates

Sidney has been performing to a good level so far this year and has completed work to a good standard which is nice to see. His attendance and punctuality has been ok for the year and this has reflected in his quality of work. It is important for him to continue as he can complete the course within the next 2 months, if he works hard from now on. He has some good practical sessions and has worked on a good level on the units this year, he must

ensure he keeps his attendance levels up to help him complete the course

within time.

Review Term: Spring

Review:

Sidney has been a great student to have on my course this year. His progress has been staggered but is now working hard in all of his units for all teachers even though there is still room for improvement. He needs to improve in specific areas which was raised in his stage 2 disciplinary hearing. He needs to recapture his focus on what he want to achieve and do in the future. I believe that Sidney will fill his potential and go far.
