The Learner Review Procedure

Each learner will have met with their Personal Tutor for a 1 to 1 review to discuss the progress they are making at college and any specific support they may require to help them achieve their targets and qualification.

As part of the review each Subject Lecturer completes a report and then the Personal Tutor summaries these in the Personal Tutor Summary. Targets are then set for each learner.

In art and craft classes the students develop design ideas for Logos for carrier bags. They have found ideas by looking at the internet but then made their own unique designs. These were transferred to fabric using tracing paper and a light box. They also used old egg boxes to make paper-mashie sheets to glue onto wine coasters and notebooks. The mats were then decorated with dried flowers, leaves and beads.

Comments:

The class have been learning and visiting places in London and made a map showing some of the landmarks and other significant sites. They have searched on the internet details of places of interest to visit like markets, galleries and have learnt to use maps and directories to find their way around.

Sinem has progressed over the last year, she takes part more and complains less than before although at times she is still reluctant to participate on certain activities. She is more polite and more co-operative with the teacher and worker than in the past. She needs to be willing to explore new ideas. She enjoys going out in the community and when helping within the group. Overall she is doing well even though she would like support with reading and writing.

Numeracy

The learners are participating in learning City and Guilds Numeracy skills E1.

Comments:

This unit consists of sizes, shapes, recognising adding and subtracting signs, money skills and totalling up sums from 1-10 and 10-20.

Sinem- Has showed a keen interest in learning this term. She has been attending extra literacy and numeracy on Fridays, in the study skills centre. Sinem needs plenty of encouragement and praises to complete a task.

Work skills

This term the learners have worked on understanding income and expenditure. How they receive or get an income. Learners have looked at wages and benefits. Plenty of monetary skills used real money. Learners have been doing Role play- being customers and sells assistants, giving and collecting correct money for items brought in a shop. The learners have completed managing their own money unit.

Sinem- Has really showed an interest in this class, since producing her curriculum vitae (CV). Sinem is sometimes reluctant to engage in some of the group discussion, in class. When she is engaged Sinem has plenty of relevant information and she helps other learners focus. Sinem needs to express herself more and push herself in group activities as she is great when she opens up.

Smart Targets:

To be the Logistics Manager of Team Logic. This means I will count the finished goods and check that the team is working on the products that the business needs.

You counted the items well for the Spitalfields Sale and are always keen when there is an errand that needs to be done. You have often helped the class secretary when she takes notes and minutes to Tina

Comments:

Your work would develop if you did more charts of how the business is progressing. Your stock taking chart was excellent and very helpful in the sale. You should develop this talent by doing some more.

Review Term: Spring

Review:

In the tutorial session, the group this term has been working on Managing Money with Mencap and learning to work in a group. The learners have been working on their units, 'Action in the community'. The unit consists of the learners recording one person whom can help them in certain situations.

This term Sinem has really become very confident in her class activity. She participates in group activities with her peers.

She has stated she wants to work as a hairdresser.

Sinem needs to learn to dismiss any hear say that are not important and try and stay focused on factual issues, that will benefit her.

Sinem has worked well this term in majority of her class.
