#### The Learner Review Procedure

Each learner will have met with their Personal Tutor for a 1 to 1 review to discuss the progress they are making at college and any specific support they may require to help them achieve their targets and qualification.

As part of the review each Subject Lecturer completes a report and then the Personal Tutor summaries these in the Personal Tutor Summary. Targets are then set for each learner.

Zephron has had a difficult start to the year with changing classes etc, but is a charming young man who can work very hard and complete all tasks asked of him.

i expect zephron to be here in three years time and have completed the full course and to go on to be who ever he chooses to be.

Mario Amico.

The group as a whole are doing copper frame, bending and soldering assessments.

Zephron has not been in this group very long but has settled in well and is producing some good work.

#### **Comments / Reference / Targets**

**Smart Targets:** 

To show fractions in their simplest form. E.g. 6/10 = 3/5

We have covered place value of whole numbers, writing numbers in words, mental and written strategies for addition, subtraction, multiplication and division. Naming and shading fractions of shape, creating a fraction from a worded problem and equivalent fractions.

Comments:

Zephron is a very quiet member of the group who gets on with his work, however I don't feel he ever lets me know if he doesn't understand something. I would prefer it if he asked straight away. Zephron has got good number skills and is producing work expected at this level, and some work at a higher level.

Zephron-to achieve your target, use your knowledge of times tables to look for the correct number to divide by. Remember that it has to be a number that the top and the bottom of the fraction can be divided by. Access your e-zone page from home to use the activities on fractions, division and times tables to help you achieve your target.

Emma James.

Smart Targets: Zephron will draft, type and print his CV for his portfolio by Wed 23.11.2011

Review Term: Spring

Review: Zephron is doing ok. His attendance lately has been lacking which is down to poor health. He needs to do a little bit of catch up but i still believe he will be successful with the course. Keep it going

Issues Raised: Completing all units
