## The Learner Review Procedure

Each learner will have met with their Personal Tutor for a 1 to 1 review to discuss the progress they are making at college and any specific support they may require to help them achieve their targets and qualification.

As part of the review each Subject Lecturer completes a report and then the Personal Tutor summaries these in the Personal Tutor Summary. Targets are then set for each learner.

Bad attendance record that needs to become at least 95% by beginning of

term 2

Smart Targets: Complete some missed work by beginning of term 2

Complete assign 3.4 by end of term

Highly organised and efficient student who does work to high standard. But

her attendance is letting her down. That must be improved for the future

success

#### **Comments / Reference / Targets**

Review Term: Autumn

Review:

Gulsah is a very good student with good potential. Her work is of very high standard. Her assignments have been a success in all subject areas. Her other work is of very good quality. She is extremely mature and serious about her work and the course.

Unfortunately, external extenuating circumstances prevent her from making the most of the opportunities presented to her. Her attendance record is very poor and this must be having a detrimental effect on her progress and success. Gulsah needs to catch up with all outstanding work especially the assignments but also with some of the other work being carried out in class or as homework.

It is hoped that Gulsah's outside problems will be eased and her attendance record will improve significantly in the second term, so that she can realise her full potential.

Issues Raised: The attendance which is very poor must improve significantly and soon. The problems cannot be allowed to rule us for the rest of our lives.
