The Learner Review Procedure

Each learner will have met with their Personal Tutor for a 1 to 1 review to discuss the progress they are making at college and any specific support they may require to help them achieve their targets and qualification.

As part of the review each Subject Lecturer completes a report and then the Personal Tutor summaries these in the Personal Tutor Summary. Targets are then set for each learner.

Theory

During block 1, the learning focus has been on site personal health and safety and being aware of potential risk to self and others which has been the underpinning preparation for the first exam.

Ellis has shown his desire to achieve and has had excellent attendance and punctuality to date. Due to a change of attendance day at college, Ellis had a delay in sitting his first exam - Health and safety - which we believed contributed to his narrow miss for a pass on this first exam. 32 / 50 = 64% (70% needed for a pass).

Derek Turner.

Subject	Attendance	Punctuality	
C&G Level 2 Cert in Plumbing Yr 1 Functional Mathematics (Cert in Basic Plumbing Studies)	93% (7)	100% (10)	
Modules:			
CR2MPLS6-9DA21A/KSY Key	Skills		

Comments / Reference / Targets

This group have covered fractions, decimals and percentages. Also, averages, scale drawing and measurments. They have investigated some aspects of handling data and are currenly engaging in a key skills/functional skills project that should be completed by Easter. The group will then focus on exam preparation for June. Ellis will have to put more effort in if he is going to meet the deadline for the submission of his portfolio.

Review Term: Autumn/Spring/Summer

Review:

Excellent attendance and punctuality and shows a quite disposition during learning sessions. Should not be too shy to ask more questions to support his listening skills.

Issues Raised: Ellis has shown that he is capable during the learning sessions. However under exam conditions may lack confidence. Needs to seek ALS SUPPORT.

Bryan Clark.
