- 91% to 87% is amber status
- 86% and below is red status

The Learner Review Procedure

Each learner will have met with their Personal Tutor for a 1 to 1 review to discuss the progress they are making at college and any specific support they may require to help them achieve their targets and qualification.

As part of the review each Subject Lecturer completes a report and then the Personal Tutor summaries these in the Personal Tutor Summary. Targets are then set for each learner.

Smart Targets: Keep to assignment deadlines

We are now approaching the end of the year with 3 more months to go before students will complete their Level 1 qualification. So far this year we have covered Unit 11 Taking part in sport which is now completed and are continuing with Unit 15 and a new unit, which is unit 8 Investigating Rights & Responsibilities.

Throughout the year we have covered Functional Skills Maths, English & ICT, within these sessions we cover the basic aspects of these subject areas and look at improving the skills of the learner in these areas. They have Exams in April which they need to pass to gain their qualification. Throughout the year we have completed mock examinations and worksheets to help prepare for the exams.

Comments:

We have also covered CYQ L1 which is an assistant fitness instructor's award, which will help learners gain work within a gym environment. We look at the body systems such as the muscular system and look into the different types of training methods.

Overall Fatlum has shown very good progress on this course and his attendance and punctuality is very good which has helped him in the course. Fatlum can at times get distracted in class and this will affect his performance, he needs to ensure he focuses more and use his energy into the work as he has lots of potential.

Review Term: Spring

Review:

He has been performing well so far this year and has completed work to a high standard which is pleasing to see. His attendance and punctuality has been good and this has reflected in his good work. It is important for him to continue as he can complete the course within the next 2 months. He has produced good practical sessions and has worked well on the units this year, he must ensure he sticks to deadlines and completes work to the ability he has.
