# The Learner Review Procedure

Each learner will have met with their Personal Tutor for a 1 to 1 review to discuss the progress they are making at college and any specific support they may require to help them achieve their targets and qualification.

As part of the review each Subject Lecturer completes a report and then the Personal Tutor summaries these in the Personal Tutor Summary. Targets are then set for each learner.

Charlene has only missed one class. She works well in a practical class as evidenced by the Observation Records. She has produced substantial classwork but has failed to submit work on calculations which was given to the class.

She is recommended for Diploma programme but must first prove her commitment to the Course.
