The Learner Review Procedure

Each learner will have met with their Personal Tutor for a 1 to 1 review to discuss the progress they are making at college and any specific support they may require to help them achieve their targets and qualification.

As part of the review each Subject Lecturer completes a report and then the Personal Tutor summaries these in the Personal Tutor Summary. Targets are then set for each learner.

Review Term: Autumn

Review: You have started to produce assessed work towards Unit 5. You must maintain a high standard of classwork and assessed work to pass this unit.

You have also started the practical unit.

If you produce work of the standard you are capable of then you will be able to achieve the qualification, however you allow yourself to become distracted during class too easily, thus missing valuable information being taught.

Issues Raised: Benjamin must make more effort to concentrate fully during class in order to gain achievement on the course.

Damian McGeary.

Review Term: Autumn 2nd half term

Review:

So far this year we have been studying 'Construction Processess and Operations'. This is an important theory unit covering management and organisation in construction.

The group has completed the first assignment containing the first 6 pass criteria.

You have completed 3 pass criteria and have started the remaining 3 so you are slightly behind target.

You have shown a marked improvement in your approach to the work in recent weeks and I hope you keep this up and achieve your true potential this year.

Issues Raised: Not fully on target so you need to use your own time to catch up to ensure you complete the course.

Damian McGeary.
