## **Learner Review**

08 March 2012

**Learner: Kemar Taylor** 

Personal Tutor: Pavla Cakiroglu

### **Key to Attendance and Punctuality percentages**

- 100% to 92% is green status
- 91% to 87% is amber status
- 86% and below is red status

#### The Learner Review Procedure

Each learner will have met with their Personal Tutor for a 1 to 1 review to discuss the progress they are making at college and any specific support they may require to help them achieve their targets and qualification.

As part of the review each Subject Lecturer completes a report and then the Personal Tutor summaries these in the Personal Tutor Summary. Targets are then set for each learner.

Smart Targets: Learn 3, 4, 6 and 7 times tables off by heart Achieved 18/01/12

We have been learning about place value, addition methods, subtraction

methods and multiplication methods.

Kemar is a VERY quiet member of the group. He works well with Rodrew, and I would like to see him contributing to class discussions-even if at this stage it

Comments: is to share his answers and opinions with the students on his table at first

before building up courage to speak in front of the whole group.

Use your chart at home to read and say aloud each times table to learn by heart. Access your E-Zone page at home to use the activities there to help

your learning.

Smart Targets:

Draw an accurate bar chart including a title, labels on both axis and scale

going up in equal measures

We have covered number, measure, shape and space.

I am really pleased with how well Kemar is getting on in numeracy. He is now sharing answers and calling out suggestions. He works hard every lesson and his attendance at 100% is fabulous. Kemar is still very shy, however it is

lovely to see his confidence grow. Kemar is on line to pass at the end of the

year-well done.

Kemar-to achieve your target take part in class activities and read the power point on handling data on your e-zone page to remind you what a bar chart needs. Access your e-zone page from home to practice all the activities.

Review Term: Autumn

Review: Kemar's attendance is exemplary as he didn't miss a class once this term. He is doing very well in both classes, just needs to come out of his shell a little bit more. He is slowly gaining confidence in speaking in public. He always completes his work and his homework. He is making an excellent progress.

Issues Raised: No issues raised. Keep up the good work Kemar, well done.

Pavla Cakiroglu.

Review Term: Autumn/Spring/Summer

Review:

Kemar's attendance is exemplary and he will shortly be receiving a certificate for his excellent attendance as it is well deserved.

Kemar's doing well in his literacy class. He is coming out of his shell a bit more, but he still is quite shy and I would like him to participate a bit more.

He scored highly in out February mock exams with his score being 30 out of 40, which means if it was a real exam, he will pass. We will be completing two more mock exams before the real test in May.

Kemar is having trouble with his listening task. We are trying to put in place some extra classes which will solely focused on listening and I will be putting Kemar's name forward for those. Hopefully with extra practice and support he will get on target to achieve.

Kemar's numeracy teacher is really pleased with how well Kemar is getting on in numeracy. He is now sharing answers and calling out suggestions. He works hard every lesson and his attendance at 100% is fabulous. Kemar is still very shy, however it is lovely to see his confidence grow. Kemar is on line to pass at the end of the year-well done.

Kemar-to achieve your target numeracy, take part in class activities and read the power point on handling data on your e-zone page to remind you what a bar chart needs. Access your e-zone page from home to practice all the activities.
