The Learner Review Procedure

Each learner will have met with their Personal Tutor for a 1 to 1 review to discuss the progress they are making at college and any specific support they may require to help them achieve their targets and qualification.

As part of the review each Subject Lecturer completes a report and then the Personal Tutor summaries these in the Personal Tutor Summary. Targets are then set for each learner.

The enforces for Work Base Learners (Apprentice) is to produce a portfolio that provides evidence of applying their Mathematical Skills to their Vocational Area's. Ben, has a good command of his Maths skills, and has started on his 'Application of Number' portfolio. He has completed his survey/questionnaire where he has started to compile the data for analysis using the different forms for mathematical skills (percentages, frequency, mean, medium and mode to produce graphical graphs, such as line, pie and block) These skills can be used in the working environment that can be used as part of a business plan in the plumbing industry. Well done Ben for your efforts and hard work.
