- 91% to 87% is amber status
- 86% and below is red status

#### The Learner Review Procedure

Each learner will have met with their Personal Tutor for a 1 to 1 review to discuss the progress they are making at college and any specific support they may require to help them achieve their targets and qualification.

As part of the review each Subject Lecturer completes a report and then the Personal Tutor summaries these in the Personal Tutor Summary. Targets are then set for each learner.

Smart Targets: Improve Attendance

We are now approaching the end of the year with 3 more months to go before students will complete their Level 1 qualification. So far this year we have covered Unit 11 Taking part in sport which is now completed and are continuing with Unit 15 and a new unit, which is unit 8 Investigating Rights & Responsibilities.

Throughout the year we have covered Functional Skills Match, English & ICT, within these session we cover the basic aspects of these subject areas and look at improving the skills of the learner in these areas. They have Exams in April which they need to pass to gain their qualification. Throughout the year we gave completed mock examinations and worksheets to help prepare for the exams.

We have also covered CYQ L1 which is a assistant fitness instructors award, which will help learners gain work within a gym environment. We look at the body systems such as the muscular system and look into the diffeent types of training methods.

Overall Aaron has shown very good progress on this course, however his attendance is becoming worrying and this will affect his performance on the course. Aaro has the abikity to do level 2 but he must show improvement in his attendance and attitude if he wants to progress.

Review Term: Spring

Review:

He has been performing poorly so far this year and has completed work to a satisfactory standard which is not good to see. His attendance and punctuality has been up and down and this has reflected in his quality of work. It is important for him to continue as he can complete the course within the next 2 months, if he works hard from now on. He has some good practical sessions and has worked on a satisfactory level on the units this year, he must ensure he keeps his attendance levels up otherwise he will fail the course.
