The Learner Review Procedure

Each learner will have met with their Personal Tutor for a 1 to 1 review to discuss the progress they are making at college and any specific support they may require to help them achieve their targets and qualification.

As part of the review each Subject Lecturer completes a report and then the Personal Tutor summaries these in the Personal Tutor Summary. Targets are then set for each learner.

To action plan herself and start to be more independant in class

to work on her G3 learner pack herself without help to complete and sit test

paper.

Smart Targets:

To be able to complete her blowdrying unit by end of march and complete 1 of

her health and safety assessments.

To attend all ALS every week without fail.

Yasmin has very good attendance and punctuality to classes. She does however need to become more independent from her friend Chrissy. I do find she copies a lot from this learner and is lazy in completing her own work. If

Yasmine wants to progress to L2 she will need to show she can work

independantly and start to complete work on her own. She does have slight learning difficulties and I have put in place some ALS for maths to enable her to have better grades in the functional skills. Her practical skills can be good if she focuses and pays attention to what she needs to complete, again its about

being independant and being able to action herself to complete units.
