The Learner Review Procedure

Each learner will have met with their Personal Tutor for a 1 to 1 review to discuss the progress they are making at college and any specific support they may require to help them achieve their targets and qualification.

As part of the review each Subject Lecturer completes a report and then the Personal Tutor summaries these in the Personal Tutor Summary. Targets are then set for each learner.

Smart Targets: More development of research, more work at home.

Eric, as always you are hard working and a pleasure to teach, you apply yourself well during the lessons, experimenting (to a high level) with a variety of techniques. You alway produce very good visual research, However, once collected you sometimes find it difficult to know what to do with it or how to use it to produce design ideas. Keep practicing by extracting (taking out) patterns and motifs from your research and combine them to create new

designs.

Smart Targets: Complete annotation and evaluation in sketchbook

You are making good progress with the practical tasks and putting a lot of thought into making these successful. Your book is generally well organised and the only thing missing is the evaluation. You need to do this ongoing as it

is easier whilst it is fresh in your mind.

Smart Targets: Write up evaluatios at the end of lessons

Eric always gives his best effort and this is being reflected in improvement in making skills. All his work is up to date except for his evaluation. Write notes at the end of lessons to remind yourself of the days work, then write up at

home, Well done eric you are improving all the time

done!

Issues Raised: annotation and evaluation

Jeannie Buchanan.

Review Term: Autumn/Spring

Review: Eric your attendance is very good and you methodically work through your tasks until they are complete. You have taken on board advice that you have been given about annotation and made improvements, well done.

Issues Raised: I am still concerned about lack of work completed outside the lesson, you skills need building and practice is vital. Spend 1 hour each day practicing your skills.
