- 91% to 87% is amber status
- 86% and below is red status

The Learner Review Procedure

Each learner will have met with their Personal Tutor for a 1 to 1 review to discuss the progress they are making at college and any specific support they may require to help them achieve their targets and qualification.

As part of the review each Subject Lecturer completes a report and then the Personal Tutor summaries these in the Personal Tutor Summary. Targets are then set for each learner.

Review Term: Autumn

Review: Attendance, punctuality and performance

Issues Raised: Katarzyna attendance and punctuality is very good. Her performance on the course is good and she is a hardworking student. I have no doubt that she would complete the course successfully

Sadegh Ziai.

Review Term: Autumn

Review:

Katarzyna is a very good student and a good member of the group. She has good maturity and good communication skills which she uses to good effect in her dealings with tutors and peers.

She has been achieving high performances during the autumn term of the course and is expected to do the same in the second term. Her assignment work in all science subjects is of high standard. Her homeworks, tests, classworks are also very good.

Katarzyna completes her work promptly and this is a very good quality for a student to have, and an indication of future success. She is organised and methodical, however sometimes some part of her work is a little too brief, but this could improve easily by spending more time on the specific work involved.

Try to complete any outstanding work or corrections during January so that you can then focus on the rest of the course and do really well.

Issues Raised: Poor attendance has been a problem for Katarzyna during the autumn term. There are extenuating circumstances, of course, but the study is also of supreme importance not only for current success but of future well being.
