Learner Review

01 November 2011

Learner: Ashley Mosley

Personal Tutor:

Key to Attendance and Punctuality percentages

- 100% to 91% is green status
- 90% to 85% is amber status
- 85% and below is red status

The Learner Review Procedure

Each learner will have met with their Personal Tutor for a 1 to 1 review to discuss the progress they are making at college and any specific support they may require to help them achieve their targets and qualification.

As part of the review each Subject Lecturer completes a report and then the Personal Tutor summaries these in the Personal Tutor Summary. Targets are then set for each learner.

Ashley is an able member of the group who takes an interest in construction and appears to enjoy the work. He is developing a good general construction knowledge and is often willing to share his ideas with the rest of the class. He has very good attendance, I hope he keeps keeps this up. The general quality of his written work has been satisfactory, both in terms of content and presentation. I hope he can sustain his current interest in and enthusiasm towards construction. Overall, a good start to the course - keep up the good work! Damian McGeary.

For this term the students have been carrying out Brickwork for their practical unit. They have been working towards the practical assessment required to pass the unit, from basic bricklaying techniques through to a completed wall.

Ashley has worked hard this term and has produced some good work. He is very willing to learn. Ashley is a quiet student but gets most of the work done to a good standard. He particularly enjoyed the session where the learners had to build stuctures out of bamboo sticks and elastic bands. He is a popular member of the group.

His target is to continue to improve his hand skills so he can achieve the practical assessment early in the new year.

Mark Furneaux.

Comments / Reference / Targets

Ashley has worked really well this term and has produced some excellent work in both his practical and theory lessons. We have been working towards the practical assessment for unit 5. Ashley has passed the assessment and achieved a credit. He has now completed about 70% of this unit and is up to date with all the work. Ashley has been a joy to teach and always turns up with the right attitude and with a smile on his face. Well done

Mark Furneaux.

Ashley started to do carpentry at the end of April and it takes time to get used to using the vast amount of tools that carpenters use.

A great amount of eye hand co-ordination is needed to use the tools accurately.

The first project that the learner undertakes is a Galleon, during this project the learner has to use a wide range of tools which include the following marking out tools:-

Ruler, pencil, marking gauge, try square, combination square, marking knife and a compass.

After marking out the Galleon the learner has to use the following tools to make it:-

Jack plane, smoothing plane, Rebate plane, Tenon saw, Panel saw, Coping saw, chisels and a Drill.

Ashley demonstrates an understanding of using the tools and just needs to hone and practice the skills that he has learnt.

Ron Leek.

Personal Tutor Summary

Comments / Reference / Targets

Review Term: Autumn/Spring/Summer

Review:

Issues Raised:

Ashley is a reserved member of the group who displays a quiet interest in the subject and participates in practical work with enthusiasm. He is building up his construction knowledge quite well with a number of further assignments compleded. The general quality of his written work has been generally good, though in some cases a little sparse. Overall, a good first year so far, keep up the good work!

Damian McGeary.

Review Term: Autumn 2010

Review: Tutor review/construction theory

Issues Raised:

Ashley is a reserved member of the group who displays a quiet interest in the subject and participates in practical work with enthusiasm. He is developing a good general construction knowledge and is usually willing to share his ideas with the rest of the class during discussion. Ashley has completed a number of units in the last year and is now working towards the examination in 'Unit 4, Structures'. His written work has been very variable, occasionally excellent, but ocassionally superficial and/or rushed. I hope he can sustain his current interest in and enthusiasm towards construction Overall, Ashley is progressing well through the course. Damian McGeary.

Ashley is a reserved member of the group who displays a quiet interest in the subject and participates in classwork with some enthusiasm. Ashley has continued to work sensibly and diligently throughout. He must now use his remaining time and effort productively, completing his coursework portfolio to the highest possible standard and his project before the May deadline. Ashley is capable of achieving the full diploma but only if he makes the best possible use of the time remaining. Damian McGeary.

Review Term: Autumn

Review: Ashley is a reserved member of the group who displays a quiet interest in the subject and participates in practical work with enthusiasm. Earlier Ashley's results were very good but, more recently, he has allowed his standards to drop slightly, and this is reflected in his practical work. The general quality of his written work has been consistently very good, both in terms of content and presentation. I would like to see him make more effort to avoid being distracted during lessons. He should also try to take a more active part in practical investigations to improve his confidence in this area. Overall, a good first term just need to to improve attendance and remember to call into College if you can not attend.

Issues Raised: Need to call into college if can't attend

Dean Gibson.
