The Learner Review Procedure

Each learner will have met with their Personal Tutor for a 1 to 1 review to discuss the progress they are making at college and any specific support they may require to help them achieve their targets and qualification.

As part of the review each Subject Lecturer completes a report and then the Personal Tutor summaries these in the Personal Tutor Summary. Targets are then set for each learner.

Comments / Reference / Targets

Smart Targets:

During the first half term of the course Patrick did basic conservation work at college and a local park, participated in an enterprise, researched local community work and charities and made a good start towards the ICT qualification. Many of these activities developed basic skills by doing mindmaps and organisers of our activities.

Comments:

Patrick participated in tutorials - covering topics such as induction and bullying and also participated in Enterprise meetings. Patrick was selected as a class rep by other learners.

Patrick enjoyed meeting 2 Young Enterprise visiting experts and a visiting expert from World Wide Volunteers who discussed charity work with the group.

To have a short discussion with another learner every lesson.

Smart Targets:

To participate in conservation activities.

To ask questions when we have visitors in tutorial.

To prepare for a functional skills mock test.

You have done all the work we have set you and done extra reading in the library. You did extra writing to practice ten sentences with a verb, full stop and capital letter. You worked very well in our practice test. Next time ask more questions, please.

to learn to check you have understood written questions by asking the examiner if you have understood correctly.

In volunteering you have completed your assessment book and you took part well in the hedge planting in Finsbury Park and the visit to Faith Garden Centre. It was very brave of you to touch the snake there.

In volunteering and fundraising you will write the envelopes and the invitations to the people we will invite.

In tutorial you took part well and took part in talking and discussions. You said 'I like talking about serious things.' You were a very good class representative and prepared well for the meetings. You have thought about your future and you have put yourself forward for a work place.

In tutorial you will think about your progress so you can finish your certificate work.
