The Learner Review Procedure

Each learner will have met with their Personal Tutor for a 1 to 1 review to discuss the progress they are making at college and any specific support they may require to help them achieve their targets and qualification.

As part of the review each Subject Lecturer completes a report and then the Personal Tutor summaries these in the Personal Tutor Summary. Targets are then set for each learner.

Review Term: Spring

Review:

Anna continues to develop her work. She is aiming to raise the grades in specific subjects to meet her UCAS predictions.

Anna has started to practice her interview technique. Anna has improved a little. She does need to work hard and practice verbalising her answers for the interviews. In addition Anna has identified that she needs to work on her maths and English in preparation for the pre-interview tests.

Anna did receive a disciplinary warning from the library. She has assured me that she understands the reasons for this and we will review her behaviour in the library at the end of the month.

Anna now needs to plan her time carefully to ensure that she achieves the grades that she is aiming for and is prepared for all the different aspects of the nursing interview process.
