The Learner Review Procedure

Each learner will have met with their Personal Tutor for a 1 to 1 review to discuss the progress they are making at college and any specific support they may require to help them achieve their targets and qualification.

As part of the review each Subject Lecturer completes a report and then the Personal Tutor summaries these in the Personal Tutor Summary. Targets are then set for each learner.

Smart Targets:

Students are currently working on Unit 7: Understanding the Creative Media Sector and Unit 8 Understanding the Television and Film Industries. As part of these units students are required to demonstrate their understanding of how the the creative media sector is structured and and the various constraints that media companies have to work within as well as identify job roles available within the creative media sector in the form of reports and research folders. For the final task students are required to prepare personal career development material in the form of a video production showreel and take part in a mock interview where they will highlight their skills and qualifications relevant to the position they have applied for also demonstrating their self presentation skills.

Comments:

Serkan works very hard and has an impeccable attendance and punctuality record. He works well independantly as well as in groups and is highly competitive. Serkan now needs to ensure that he proof reads all written work before submitting work to the deadline for any punctation, spelling and grammar mistakes. He also now needs to be more analytical in is approach to analysing media texts as he tends to describe rather than analyse.

Modules:					
ND3MMVD1-1DA22B/PPM Unit 51: PageLayout&Dsgn					

Smart Targets:

Complete work and refer to merit grading criteria also complete evaluation. Students are currently developing their print-based media production skills and journalist techniques, by creating a magazine spread using Adobe InDesign software and a print-based media advertisement using Adobe Photoshop software. For this unit students had to research on the print-based media industry, print-based media products and participate in a traditional hand print-based media production workshop. The final task was to create a magazine article to go with the genre of the magazine covers they created last year and a print-based media advertisement to target a specific audience. This was to be presented in the form of a magazine spread with front cover

Comments:

Serkan's attendance and punctuality is excellent. Serkan always works hard and meets deadlines set. His research sketchbook is good, but to achieve at least a merit grade, Serkan needs to follow the feedback and ensure his work is very detailed. Serkan excels in practical tasks and has developed excellent Photoshop and InDesign skills, which have been depicted in his magazine spread and print advertisement. Serkan now needs to ensure he refers to the assignment brief and completes work to at least merit grading criteria.
