#### The Learner Review Procedure

Each learner will have met with their Personal Tutor for a 1 to 1 review to discuss the progress they are making at college and any specific support they may require to help them achieve their targets and qualification.

As part of the review each Subject Lecturer completes a report and then the Personal Tutor summaries these in the Personal Tutor Summary. Targets are then set for each learner.

Comments:

Tiago is reluctant to engage in this unit, fails to take notes, is easily distracted and has a problem in listening. I feel that this is going to be a struggle for him, but he does not help himself, at times acting as if he was still at school and by being "bad "he somehow becomes the hero. this is not good enough and he needs to deal with this.

Smart Targets: More research/work in your own time.

Tiago, your attendance and punctuality is fantastic for this unit. Well done. You have also completed all the work set in the studio. However, you tend to race to complete the work and as a result, the work is not of a very high

Comments: race to complete the work and as a result, the work is not of a very high

standard. You have to now understand that its the QUALITY of your work that counts, that means making sure you have good research that will help you

produce design ideas that must be well thought out and executed.

Review Term: Autumn/

Review: Tiago can do better than he has to date, he is doing the work but with more effort he could produce work of better quality. Start to demonstrate some enthusiasim for the work, you will see an improvement.

Review Term: Spring

Review: Tiago has shown some improvement over the last term and can produce good work when he wants to . His weakness is getting distracted by other members of the group and he seems to have a need to mess around or avoid some aspects of the work. This needs to improve and we are dealing with this issue.
