The Learner Review Procedure

Each learner will have met with their Personal Tutor for a 1 to 1 review to discuss the progress they are making at college and any specific support they may require to help them achieve their targets and qualification.

As part of the review each Subject Lecturer completes a report and then the Personal Tutor summaries these in the Personal Tutor Summary. Targets are then set for each learner.

To ensure you achieve a merit or distinction grade, you need to complete the following:

Smart Targets:

- Ensure your sketchbook work is as good as your practical.
- Complete evaluation task.

Students are currently developing their print-based media production skills and journalist techniques, by creating a magazine spread using Adobe InDesign software and a print-based media advertisement using Adobe Photoshop software. For this unit students had to research on the print-based media industry, print-based media products and participate in a traditional hand print-based media production workshop. The final task was to create a magazine article to go with the genre of the magazine covers they created last year and a print-based media advertisement to target a specific audience. This was to be presented in the form of a magazine spread with front cover and print advertisement.

Comments:

Amal's attendance and punctuality is good. Amal is a great student who is committed to the course and always works very hard. Her research sketchbook was good and evidenced a wide range of print-based media products and techniques. However, Amal really excels with practical work, she is fantastic at Photoshop and has a great eye for design, she picked up InDesign skills really quickly and was able to produce a professional magazine article and print advert into a full double page spread. Amal would do great in the print-based media industries.

Smart Targets:

Students are currently working on Unit 7: Understanding the Creative Media Sector and Unit 8 Understanding the Television and Film Industries. As part of these units students are required to demonstrate their understanding of how the the creative media sector is structured and and the various constraints that media companies have to work within as well as identify job roles available within the creative media sector in the form of reports and research folders. For the final task students are required to prepare personal career development material in the form of a video production showreel and take part in a mock interview where they will highlight their skills and qualifications relevant to the position they have applied for also demonstrating their self presentation skills.

Comments:

Amal is a bright young lady who always tries her best at completing work. Her written skills have improved since starting the course last september. She is pleasant and polite and respects her peers and staff alike. In order for Amal to achieve higher grades for the written work on the course she needs to ensure that she applies herself to tasks and use handouts and powerpoint presentations on the E-Zone to help her complete tasks. Amal also needs to ensure that she allocates enough time to complete written tasks and not leave it to the last minute. Amal now has one task remaining to complete this unit which is the showreel which needs to be done by Tuesday 13th December.
