#### The Learner Review Procedure

Each learner will have met with their Personal Tutor for a 1 to 1 review to discuss the progress they are making at college and any specific support they may require to help them achieve their targets and qualification.

As part of the review each Subject Lecturer completes a report and then the Personal Tutor summaries these in the Personal Tutor Summary. Targets are then set for each learner.

Review Term: Autumn

Review: Osman, although quiet is starting to produce some good work in the practical sessions. He has had some difficulty in applying the basic bricklaying skills into constructing small basic walls but he has shown very good determination and is always working hard to improve. During his functional skills lesson he needs to apply himself and show more motivation when participating in these lessons. He tends to become easily distracted and loses concentration in the classroom.

Review:

Osman, you are working well in your functional skills lessons but you need to attend more and on time to make the most of our time in these maths lessons. We need to work together to get you to a standard to be able to pass your functional skills maths exams in May 2012 which, if you can improve your punctuality and attendance is a very achievable target.
