The Learner Review Procedure

Each learner will have met with their Personal Tutor for a 1 to 1 review to discuss the progress they are making at college and any specific support they may require to help them achieve their targets and qualification.

As part of the review each Subject Lecturer completes a report and then the Personal Tutor summaries these in the Personal Tutor Summary. Targets are then set for each learner.

Comments / Reference / Targets

Use BKSB resources to review ordering and comparing common fractions, **Smart Targets:**

mixed numbers as well as working out the equivalencies between fractions,

percentages and decimals.

Although, Hamdi has joined the course late, she is up to date with all her work. She is able to analyse a given problem and can calculate with all four

mathematical operations. At times she can be both distracted easily and cause

disruption in class. She needs to calm down and focus on the task in hand.
