The Learner Review Procedure

Each learner will have met with their Personal Tutor for a 1 to 1 review to discuss the progress they are making at college and any specific support they may require to help them achieve their targets and qualification.

As part of the review each Subject Lecturer completes a report and then the Personal Tutor summaries these in the Personal Tutor Summary. Targets are then set for each learner.

Smart Targets: Research and record (in sketchbook) key art words and their meaning

Comments: Get into the habit of evaluating and annotating straight away.

Alex produced excellent work for this unit and his grade reflects this. Was keen to experiment with all techniques (the first in his class to complete this unit ahead of time). His lino printing and finished scarf in particular displayed a good eye for design

Comments / Reference / Targets

Smart Targets: You need good organisation, especially for this unit

Comments:

Because this unit is researched based and a written report, Alex initially needed help with organisation and planning. Having got the help he has learnt how to extract the key facts and information from his collected visual research.

Comments:

Alex is finding it hard to keep up in this subject but he shows willing and has made some improvement, better note taking would help him as well as improving his listening skills. His essay was not up to standard and he needs to see me about the content.

Review Term: Autumn/

Review: Alex has a problem with his writing skills and although he attends functional skills i feel that he it would be useful for him to have a support working to help him with this. He produces the work but does not always understand the requirements and can go off into his own little journey. Otherwise he has shown improvement this year.
