- 91% to 87% is amber status
- 86% and below is red status

The Learner Review Procedure

Each learner will have met with their Personal Tutor for a 1 to 1 review to discuss the progress they are making at college and any specific support they may require to help them achieve their targets and qualification.

As part of the review each Subject Lecturer completes a report and then the Personal Tutor summaries these in the Personal Tutor Summary. Targets are then set for each learner.

Smart Targets: Obtain at least merits for all of Gregs units

Your behaviour has improved and so too has the standard of your work. You should continue in the same way to achieve the grades you are really capable of. Last term was a good learning period where I hope you learn't that if you

did not concentrate in class more then you would under-achieve.

Smart Targets: Unit 1

Arran's attendance and punctuality is excellent. He is doing well at the

Comments: moment but he needs to pay more attention during the lesson. He can get distracted easily by others, he needs to be more focused and get on with his

work.

Smart Targets: Greg's Units

Arran, A good attendance is not enough. You need to revise your lessons with me (especially Unit 14) and focus more in class. In fact your attention in class is weak and you quickly return to the idle conversations with those next to

Comments: is weak and you quickly return to the idle conversations with those next to

you. This is a shame because I believe you have the ability to do well but at

this rate you have an excellent chance of under-achieving!

Arran is an able student who needs to work harder and concentrate fully in

class. Arran has not handed in any of the eight sets of the homework however

has managed to score 64% in the recent test. Arran needs to improve

his attendance and hand in all the set work.

Arran needs to do the homework on fractions, directed numbers, averages,

representation of data, scatter graphs, probability, approximations chapter 7,

number chapter 1 and score 70% in the next test.
