The Learner Review Procedure

Each learner will have met with their Personal Tutor for a 1 to 1 review to discuss the progress they are making at college and any specific support they may require to help them achieve their targets and qualification.

As part of the review each Subject Lecturer completes a report and then the Personal Tutor summaries these in the Personal Tutor Summary. Targets are then set for each learner.

Smart Targets: To show fractions in their lowest form. E.g. 8/10=4/5 Partially achieved.

9/01/12

We have covered place value of whole numbers, writing numbers in words, mental and written strategies for addition, subtraction, multiplication and division. Naming and shading fractions of shape, creating a fraction from a

worded problem and equivalent fractions.

Annalisa is better at maths than she thinks she is. If the topic has been explained clearly she completes all work set neatly and to a high standard. Annalisa is a little quiet in class and I would like to see her contribute to class

discussions a bit more.

Annalisa-to achieve your target you need to make sure you are practicing your times tables regularly(daily) Look at the fraction and think "which number can I use to divide the top of the fraction and the bottom of the fraction by" Access your e-zone page from home to practice the activities on times tables,

multiplication, division and fractions.

Smart Targets:

Create an accurate bar chart and explain what 4 things bar charts should

have.

We have covered number and measure, shape and space.

Annalisa continues to work well in class. The majority of the time she works hard and completes all work set. I feel that Annalisa has low confidence in her ability, but with assessments that have been taken, the incredibly neat notes that she makes and the level of work she produces I hope she can see how

much she has progressed so far this year.

Annalisa-to meet your target, take part in class activities. Read and revise the bar charts power point on your e-zone page. Complete all activities in class and on e-zone and access your e-zone page from home to practice.

Review Term: Autumn/Spring/Summer

Review:

Annalisa's attendance is exemplary and she will soon be receiving a well deserved certificate of excellent attendance.

Annalisa works well with others in class. She is a quieter member of the group, but does participate in all activities. Her reading skills are improving and she will benefit from reading various materials (books, newspapers etc.) at home.

Her writing has also improved, however we will continue to work on her writing skills in class.

Her scores in online practice tests flactuate from 24 - 28. The pass mark is 27 which means further practice is required. We will continue to complete practice tests in class, however Annalisa should continue to complete them at home also.

Annalisa's numeracy tutor is happy with Annalisa in class. She says that Annalisa continues to work well in class. The majority of the time she works hard and completes all work set. She feels that Annalisa has low confidence in her ability, but with assessments that have been taken, the incredibly neat notes that she makes and the level of work she produces I hope she can see how much she has progressed so far this year.

Annalisa-to meet your target in numeracy, take part in class activities. Read and revise the bar charts power point on your e-zone page. Complete all activities in class and on e-zone and access your e-zone page from home to practice.
